Sprint 4 Plan – Cafe Hopper

Completion date: Tuesday, November 19, 2024
Team name: Arveen Azhand, Jade Koo, Nhi Le, Harshith Pothula, Waylon Williams
Revision number: 1.0
Revision date: November 19, 2024

Goal: Refine UI and small features that we have been waiting for the infrastructure to start. Spend some time catching up on documentation and testing and enforcing coding standards.

User story 1: As a cafe explorer, I want to view other people's profiles and the content they have posted
- Task 1.1: Update review component to fetch profile data alongside reviews (1 hour)
- Task 1.2: Update UI of review component to display profile picture and name (1.5 hour)
- Task 1.3: Update profile part of review component to navigate the the corresponding user's profile (1.5 hours)
- Task 1.4: Make review like button work with the backend (2 hours)

User story 2: As a cafe curator, I want to be able to edit my custom lists of cafes so that I can personalize them to my liking
- Task 2.1: Update supabase policies for deleting/inserting (0.5 hour)
- Task 2.2: Set up UI for Editing List View (1.5 hour)

User story 3: As a cafe searcher, I want to be able to find cafes that are open in specific time frames so that I do not have to guess when they are open at the time that I am searching them.
- Task 3.1: Add UI for custom time filtering cafes (1 hour)
- Task 3.2: Connect custom filter to backend route search (2 hours)

Infrastructure:
- Task I.1: Implement Google Typescript Coding Standard (Week 2)
- Task I.2: Refactor backend so that it adheres to clean coding principles
- Task I.3: Increase test coverage
- Task I.4: Add inline documentation on front end
- Task I.5: Document backend routes on README

Spike
- Jest and testing
